## New Self-Compliance Checklist for Health Reform

The DOL has just recently released a "self-compliance tool" that addresses health reform issues. This new tool is very similar to a self-compliance HIPAA checklist provided by the DOL quite awhile ago. Both of these checklists can be found at the DOL's **Health Benefits Laws Self Compliance Tools** webpage. Although not required, these self-compliance tools are intended to help employers assess compliance with respect to HIPAA and the Affordable Care Act (Health Reform).
